

Surtec's residential enclosures are the administration and distribution point for voice, fax, data networking, audio and video entertainment, internet access, home security, home office and all other voice/data/audio/video/security solutions.

For surface mounting, drive the mounting screw partially into the wall. Then hang the enclosure on the screw.

Cut an "X" in the middle of the plastic protection modules to allow cable to pass through.

Holes for quickly and easily re-locating modules using the hand operated rivets provided with each

Ground screw

Ac outlet knockout for power

- 18 gauge steel construction with white powder coating finish
- Removable left or right hinged door.
- Rear mounting hole located top center for easy installation.
- Snap-in cable grommets.
- Knockout to accommodate AC power requirements.
- Supports surface mount and in-wall installations.
- Flanged door hides rough edges of drywall openings in in-wall mounted installation.

Surtec's home cabling enclosures offer two mounting styles. Type A and C have "mounting ears" which allow for easy mounting between studs in a wall space. Type B and D have no mounting ears and are for surface mount applications. Different designs for different applications.

Features / Applications:

1. Type A and B have a hinged door with an ergonomically designed smart lock
2. Type C and D have a one piece screw mount cover
3. Enclosures come in 14 and 28 inch heights for a variety of infrastructure applications
4. Each supports our standard modules- data, audio, video, telecommunication and security
5. Stud bay or wall mount for your particular application
