

FRENCH WALL PLATES

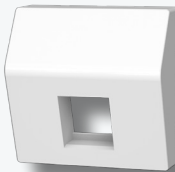

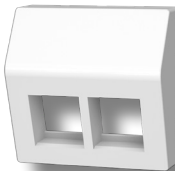

French Style Faceplate 45x45mm

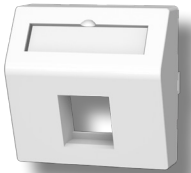

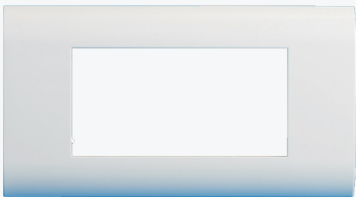

Product Features

- **Optimized Design:** The original 2-piece design has been optimized into a 1-piece solution, simplifying the installation process and enhancing ease of use.
- **Strong Compatibility:** Fully compatible with our Jacks and can be seamlessly integrated into various setups to meet diverse needs.
- Compatible with our standard French-style plate as well as the “MOSAIC” format, supporting a variety of related back boxes.
- **Rounded Module Design:** The carefully designed rounded module provides a more streamlined and aesthetically pleasing look, enhancing the overall space.
- **Wide Application Range:** Suitable for both commercial and residential applications, offering flexibility to meet various requirements.
- **Easy Installation:** Standardized size and design make installation quick and requires no additional accessories, reducing installation time and cost.
- **4 versions of the module are available:** These include flat and angled designs, each offered in 1-port and 2-port configurations, with or without a labeling window, providing a variety of options to suit your space.
